## Membership Management Software Transition

Everyone should have received emails when we switched to the new system a couple of weeks ago. Here are some key points about the transition:

- A few people had **password problems**. If your password is not working, then click "Forgot Password" in the Login box in the right corner of the home page and enter your email address. The system will send you an email with a link that lets you create whatever password you want.
- If you intend to renew your membership, then please **make sure your profile is accurate and complete**.
- If you have a family membership, please **make sure your family members are in the system**.

Overall, the transition has gone smoothly with minor problems fixed quickly. The new system will make trip registration easier and faster. We will send more details about the new process in early August before trip sales start.

If you have any questions about the new system or your profile, please reply to this newsletter.

### Summer Vacation

There will be no general membership meetings in June or July.

The meeting on August 14, 2012 will feature trip presentations.
