

TRAVEL Info:

A. **State-by-State Restrictions:** Whether you're traveling with the club on a ski trip or going on your own you'll need to know the various [state restrictions](#) due to COVID-19. Check out the Condé Nast Traveler [article](#), which provides a comprehensive review of each state with travel restrictions.

B. **Domestic/International Travel:** There is another pretty comprehensive [article](#) by Condé Nast Traveler addressing domestic [and](#) international travel regarding airline, cruise and hotel reservations changes and cancellations. It also includes a country-by-country guide: how Europe is reopening; Caribbean Islands reopening this summer; and how Asia, Central and South America and African Countries are reopening.

C. **Re-Entry to United States:** According to an email I received on January 22, 2021 from [Trip Advisor](#) if you're traveling internationally the CDC recently issued a COVID order that may impact your plans for re-entering the United States. **Effective January 26, 2021 for travelers arriving in the United States:**

"You will need to get [tested](#) for COVID-19 **no more than 3 days** before departing to the United States **AND** show a [negative](#) test result to the airline before boarding **OR** show documentation of recent recovery from COVID-19 to the airline before boarding. This new order applies to **(1) all air passengers** — including U.S. citizens and legal permanent residents — **aged 2 years and older.** **(2)** It also applies [regardless of the length of time spent](#) outside of the United States.

[Acceptable documentation](#) of recovery from COVID-19 includes both a [positive viral test](#) result within 3 months of travel (or the time- period specified in current CDC guidance) **AND** a [letter](#) from a healthcare provider **OR** public health official stating that the passenger is cleared to end isolation. Passengers who have tested positive for COVID-19 will need to delay their travel until they meet the criteria to end isolation; learn more [here](#).

If you need more information visit this [FAQ](#) page at [CDC](#)." Trip Advisor also has posted [links](#) to countries located in: North America/Caribbean, Europe, Asia, Middle East, South America, Africa, and Oceania that provides current travel guidance and number of cases for each country.

D. **Airlines:** I thought it might be helpful to repeat this article as travel plans continue to be formulated and you need to know if you're traveling via Airlines for the upcoming Ski Season or other personal travel here are links to some of the airlines website specifically regarding what you can expect insofar as how they're handling "social distancing:" [Alaska](#), [American](#), [Delta](#), [Frontier](#), [jetBlue](#), [Southwest](#) & [United](#). You might want to check out the website "[The Points Guy](#)" who has a lot more information about each airline - aircraft cleaning, face masks, passenger loads and other measures. Austin Skiers does not endorse nor has verified the information they provide. We encourage you, which I'm sure you're doing, to also check out the particular airline you're flying,

which may have more up-to-date information.
